Matrix to Showcase Office-in-a-Box Solution at COMEX'14, Oman

Matrix Comsec, a leading manufacturer of Enterprise Telecom and Security solutions, is participating in COMEX 2014. Matrix will showcase telecom solutions encompassing the range of Business Phone Systems, Voice & Data Convergence, IP Phones, Branch Office Gateways and GSM/3G Gateways.

During this event, Matrix will launch its award-winning NAVAN CNX200 - Office-in-a-Box Solution. NAVAN CNX200 is a single box solution for all Voice, Data, Internet, Wireless, Mobility and Messaging needs of small businesses with up to 24 users. NAVAN CNX200 delivers advance IP-PBX functionality, high-speed Internet, wireless voice & data access, data routing and virtual private networking from a compact and converged platform.

"NAVAN CNX200 is ideal for Mobile operators, Managed Telephony and Internet Service Providers,

helping them to access new markets and increase revenue streams. Perfect fit for their business, NAVAN offers bundling of Broadband Internet, GSM/3G Mobile Voice & Data and SIP Trunking services from single box solution. We are looking forward to meeting key service providers and business professionals to explain this unique solution." said Dipesh Patel, Business Manager.

Visit Matrix at COMEX 2014 during 07 to 11 April, Stand P-11.

About Matrix Comsec

Established in 1991, Matrix is a leader in Telecom and Security solutions for modern businesses and enterprises. An innovative, technology driven and customer focused organization; the company is committed to keep pace with the revolutions in the telecom and security industries. With around 30% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products like IP-PBX, Universal Gateways, VoIP Gateways and Terminals, GSM Gateways, Access Control and Time-Attendance Systems, Video Surveillance System and Fire Alarm Systems.

MECO offer Battery Capacity Tester, Model - 6363 & 6390

In the modern age with the increase in various portable devices, maintenance of batteries has become crucial as the performance of these devices depend on life of batteries. Because of continues charging and discharging of batteries their performance gradually deteriorates until charging is no longer possible which may result in sudden failure of the system.

MECO Battery Capacity Testers can give quick results on the state of a battery either as PASS, WARNING or FAIL based on comparator settings of internal resistance and voltage for various batteries including UPS battery, Nickel-metal hydride battery (NiMH), Nickel cadmium battery (NiCd), Lithium-ion battery (Li-ion), Alkaline battery and Lead-Acid battery. Internal Resistance / Impedance of the battery is measured in milliohms is the gate keeper that is defined as the opposition to the flow of current within the battery. Users can choose from 2 models to suit their applications: Battery Capacity Tester Model 6363 for testing batteries upto 40V
