

Matrix Comsec Concludes Growth Summit at Nepal

Matrix Comsec, recently concluded its Fifth annual partners Growth Summit in Nepal. It was a four day event where Top performing Matrix partners were awarded and business strategy for the next year was discussed. Around 100 Matrix partners attended the summit. Matrix international partners from countries like, Australia, Thailand, America and Dubai were also present for the summit. Complying with its tradition of introducing products during the summit, this year too two products one each on telecom and security range respectively were introduced.

”

“Our partners are core to our business and a key driver for Matrix’s future growth. This event is a demonstration of Matrix’s commitment to our partners across the globe, as well as an opportunity to recognize our top performing channel partners,” says Ganesh Jivani, MD, Matrix Comsec.

The event was a time to take a break after a year-long hard work. Matrix partners enjoyed sightseeing. Growth Summit also provided a platform to partners to interact with their other partners and share their experience and ideas.

The summit ended on a positive and energetic note where partners were all charged up to tackle the current business year and promised to meet again at the summit next year.

HID Global Expands iCLASS SE Platform

HID Global, announced that the company has enhanced its iCLASS SE platform with two new additions: the standards-based iCLASS Seos credential for improved security, privacy and portability; and support for the industry-standard Open Supervised Device Protocol (OSDP) for secure, bi-directional communications of interconnected devices. The additions are the latest in a wide variety of planned enhancements as HID Global continues to leverage its iCLASS SE platform to deliver new capabilities for meeting current and future access control requirements. “Our award-winning iCLASS SE platform has become the new benchmark for highly adaptable, interoperable and secure
