

## Matrix to showcase its range of cutting-edge business VoIP, voice & data convergence & enterprise voice platforms at **INTEROP 2014**, Mumbai

**M**atrix Comsec, India based leading manufacturer of Business Phone Systems and VoIP Gateways is participating in a leading technology exhibition INTEROP during September 4-5, 2014.

During INTEROP Matrix will showcase its cutting-edge range of business VoIP solutions. This includes VoIP Gateways for POTS, GSM and ISDN PRI networks, Converged Voice & Data Solution for Small Offices and Branch Offices and Business Phone Systems.

Major highlight from Matrix will be NAVAN CNX200 – Office-in-a-Box Solution. NAVAN is suitable for all small offices, start-up businesses and branch offices, offering all integrated IP-PBX, Data Router, Wi-Fi, GSM FCT, VPN and Firewall features. It delivers advance business solutions such as IP telephony, high-speed internet, SIP Trunks, wireless access, data networking, Android/iOS smartphone mobile extension and virtual private networking from a compact and converged platform.

“This unique all-integrated approach eliminates the need to buy racks of equipment and avoid multiple vendors lock-in. It is a future-proof investment which saves maintenance/repair costs and hiring expensive IT staff to support multiple devices.” said DhavalBhagora, Product Manager – VoIP/IT Products.

In addition to this, Matrix will showcase its latest range of VoIP Gateways. With the influx of SIP Trunks in Indian market, service providers such as TATA and Airtel are all geared up for the revolutionary SIP Trunking also known as IP based PSTN service. Matrix has field-proven and reliable range of VoIP Gateways for POTS (CO), GSM/3G and ISDN PRI networks interoperable with SIP trunks of these service providers and leading PBXs, Centrex, Soft switches, Hosted telephony solution providers.

“INTEROP is a major technology event in India, bringing IT professionals, System Integrators and Business prospects together.

We are looking forward to meeting System Integrators and Telecom Service Providers to demonstrate and explain our innovative telecom products and solutions.” added DhavalBhagora.
