

MATRIX

MATRIX SPARSH VP710 - THE SMART VIDEO IP DESKPHONE

KNOWING THAT VIDEO CALLING and collaboration is becoming the need of the hour, Matrix' User Terminal for high level professionals is backed by robust IP network and two Gigabit Ethernet ports to bridge communication gaps by offering uninterrupted and enhanced video and audio calling experience. Besides classy looks and reliable architecture, the phone has a bundle of functionalities to deliver such as: Seven Inch Multi-touch Intuitive Touch Screen: The enlarged seven inch HD screen offers the essence of face to face interactions, and hence, enables employees to automate decision making process. Fitted with a shutter that can be slid over the camera, this phone offers flexibility of protecting users' privacy, if required.

The deskphone comes with an in-built USB port that enables employees to insert external devices and back up their call recordings or take screenshots. The same port can be used for easy media exchange of Apps, Music, Video and other files. Personnel can charge their smartphones or tablets by plugging them in the USB port of SPARSH VP710.

NETGEAR

NETGEAR INSIGHT MANAGED SMART CLOUD SWITCHES

NETGEAR IS EXPANDING ITS EMERGING family of Insight managed Smart Cloud Switches with two new 28-port models offering greater capacity for growing businesses. Currently available as a mobile app, the remote setup, monitoring and management features of the Insight management solution will be available in mid-February through the new NETGEAR Insight Cloud web portal, providing the benefit of a larger display screen for a single-pane view of all devices and locations.

As an honoree in the 2018 CES Innovation Awards competition for excellence in design and engineering, the NETGEAR Insight management solution is a progressive way to instantly discover, configure, and continuously monitor and manage your network. Designed for easy remote management of NETGEAR Smart Cloud Wireless Access Points, Smart Cloud switches and ReadyNAS Network Storage, Insight will now also provide support for the Orbi Pro Tri-band WiFi System for small businesses as of the update in mid-February.
