

Matrix to Showcase Office-in-a-Box Solution at NigeriaCom

Matrix Comsec will launch its Office-in-a-Box solution NAVAN CNX200 at NigeriaCom 2013 exhibition, Lagos, Nigeria. Matrix is a leading manufacturer of IP based business phone systems and VoIP-GSM Gateways.

“

NigeriaCom is a major technology exhibition for industry players to showcase latest telecom and ICT solutions. We are excited to participate in this event for the first time with our local partner Reliance Infosystems. Matrix will showcase its range of business phone systems, converged voice & data solutions, Android/iOS mobile softphone and GSM-VoIP gateways.

”

Dipesh Patel, Business Manager, Matrix Comsec.

At this event, Matrix will unveil its NAVAN CNX200 – all-in-one office solution for all Voice, Data, Internet, Wireless, Mobility and Messaging needs of small businesses and branch offices with up to 24 users. NAVAN CNX200 delivers advance IP-PBX functionality, secure internet, wireless access, data networking and virtual private networking from a compact and converged platform.

Optimized for service provider business, NAVAN CNX200 offers bundling of managed communication services and high-speed internet over 3G/HSPA and leased lines. This in turn helps service providers to reduce operational costs, increase ARPU and leverage communication infrastructure and services.

Nigeria is the fastest growing telecommunication and IT market place in West Africa region. We are looking forward to meeting key service providers and business professionals to explain our business solution.

ADI Global Joins Hands with INVIXIUM ACCESS in India

ADI Global, a leading global distributor of security and low voltage products, announced an exciting partnership with INVIXIUM ACCESS to be a preferred distributor of its fingerprint biometric authentication readers for India.

“

ADI Global is very happy to partner with Invixium, we are seeing overall growth in acceptance of biometric systems for access control. Customers are also demanding products that are innovative, well designed and have robust built quality with great user experience. It is our endeavor at ADI to introduce the latest products to serve our discerning customers. We are confident that Invixium will find lot of acceptance in India.

”

Anil Mehra, Director, ADI Global.

Headquartered in Toronto, Canada, INVIXIUM ACCESS is focused on providing a fresh experience in biometric user authentication. INVIXIUM's existing portfolio of incredible products, targeted for the biometric access control and time & attendance markets, reflects exquisite design, unparalleled quality and a plethora of innovative features. This remarkable product series includes: IXM MYCRO, IXM SENSE and IXM TOUCH. In addition, INVIXIUM has engineered an astonishing, web-based software cleverly named IXM WEB.

“We received extremely positive feedback from the industry about our exquisite design, quality engineering, unique features, the latest in class Android OS (Jelly Bean) and IXM WEB – our innovative and playful web based Software,” said Shiraz Kapadia, CEO & President of INVIXIUM. “We are extremely delighted to have ADI Global be a preferred channel for INVIXIUM products due to their caliber and wide-spread footprint in India,” adds Kapadia.
