Matrix and Voxbone complete Interoperability test for Voice Services

Matrix Comsec, manufacturer of IP-PBXs and VoIP-GSM Gateways announced the successful completion of interoperability testing with Voxbone, a market leader in providing worldwide geographical, toll-free and iNum telephone numbers.

Matrix's IP Phone Systems, VoIP Gateways and Adaptors are ideal IP telephony solutions for SMB users that wish to compete and grow their businesses over time. SIP trunking has been offering dramatic reduction in cost over traditional digital telephony services. This interoperability will offer robust, feature-rich solution to branch and remote offices for cost-effective deployments.

"By combining the services offered by both the companies, the users can built a strong communication base while simultaneously managing the costs of such communication services," said Manager - Marketing, Mr. Sajeew Nair - Telecom Products. "Matrix works with our partners to ensure reliable and high-quality solutions that meet our customer requirements."

About Matrix Comsec

Established in 1991, Matrix is a leader in Telecom and Security solutions for modern businesses and enterprises. An innovative, technology driven and customer focused organization; the company is committed to keep pace with the revolutions in the telecom and security industries. With around 30% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products like IP-PBX, Universal Gateways, VoIP Gateways and Terminals, GSM Gateways, Access Control and Time-Attendance Systems, Video Surveillance System and Fire Alarm Systems. These solutions are feature-rich, reliable and conform to the international standards. Having global foot-prints in Asia, Europe, North America, South America and Africa through an extensive network of more than 500 channel partners, Matrix ensures that the products serve the needs of its customers faster and longer. Matrix has gained trust and admiration of more than 350,000 customers representing the entire spectrum of industries. Matrix has won many international awards for its innovative products.

About Voxbone

Voxbone is the market leader in providing worldwide geographical, toll-free and iNum® telephone numbers. The company delivers high-quality inbound communications (often referred to as direct inward dialing, or DID) from more than 50 countries and more than 4,000 cities. Voxbone enables Internet communications services providers, global carriers and national operators to extend the reach of their voice services internationally, rapidly and with limited costs. Voxbone is the only operator of its kind with self-owned licenses, telephone number ranges and network infrastructure in its footprint. The company excels through its quality of service, best-in-industry management tools and regulatory compliance. Voxbone has more than 700 wholesale customers around the globe, including Skype, IDT, Global Crossing, Jajah and Arkadin. Founded in 2005, Voxbone is privately held and has offices in Brussels, Los Angeles and Singapore. For more information, visit www.voxbone.com.
