

Matrix Partners with nexVortex to expand its presence in USA and Canada Markets

India, 9 September 2012

Matrix Comsec, a leading manufacturer of VoIP products such as IP-PBX, IP-Servers, VoIP Gateways and IP Phones, announced the successful completion of interoperability testing with USA based nexVortexInc., for its SIP Trunking services.

Small-to-medium sized businesses (SMB) and residential users adopting SIP trunking services of nexVortex for flexibility, cost benefits and enhanced productivity can now seamlessly deploy SIP Gateways of Matrix Comsec.

“Our SETU range of VoIP gateways and ETERNITY range of IP-PBX offer advance features for businesses and help them to save over telephony costs, offer staff mobility and increase productivity. We have tested our gateways for interoperability with leading service providers in USA and Canada region and we continuously work to enhance our portfolio of service providers for these business essential regions.” said Sajeev Nair, Manager-Product Management for Matrix Comsec.

“nexVortex is a leading SIP Trunking service provider for small businesses and large enterprises, holding a very good market reach among the target groups. We identified the requirement of testing our VoIP gateways and IP-PBX with nexVortex SIP Trunking services to support our customers, in different industries such as small businesses, institutions, hotels, call centers and manufacturing units.” Sajeev continued.

This interoperability of SIP Trunking suite will offer customers the flexibility to avail value added business services offered by nexVortex such as cost effective long distance calling, Toll-Free Numbers, E911 calls, Number Portability and Failover communication.

ABOUT MATRIX COMSEC
