

Matrix Comsec Wins “Best of Show” Award for its Mobile and Wireless Gateway Solution by TMCnet

Matrix Comsec , a leading manufacturer of VoIP products such as IP-PBX, IP-Servers, VoIP Gateways and IP Phones, announces that it has been awarded with Prestigious “Best of Show” Award at IT-Expo Austin 2012 under Best Mobile and Wireless Solution Provider Category.

Matrix SETU VGFX, a VoIP Gateway Solution offering VoIP-GSM-PSTN Connectivity and High-Speed Internet Accessibility feature in a single Platform, has been bestowed with this coveted award for offering Best Mobile and Wireless Solution. More than fifty products were evaluated throughout the week at IT Expo, emphasizing on the parameters like key features and benefits, innovative quality and ability to work with existing industry standards. The product offers seamless

connectivity between IP, GSM/3G and PSTN networks. Apart from voice calling, it offers high speed internet accessibility over 3G/HSPA/EDGE networks. This makes the gateway an excellent alternative to fixed line data communication and leased line connectivity. It also acts as an ideal backup solution to the existing fixed line communication in case of internet outage conditions.

“We are delighted to be recognized as the Best Mobile and Wireless Solution Provider by TMC net for our “All-In-One“ VoIP Gateway Solution, which was designed to meet the growing demand of voice and data requirement of a business. Recognition by TMC will further inspire our passion for building solutions and experiences” said Sajeev Nair, Manager-Product Management, Matrix Comsec.

“The breadth of products and solutions that are showcased in this year's ITEXPO, Austin have raised the bar in terms of innovation and quality within the communication and technology industries" said Rich Tehrani (News - Alert), TMC CEO and Conference Chairman. "We're pleased to honor the Best of Show Award winners, and we congratulate them for differentiating themselves in various technology categories amongst the huge competition".
