

## Matrix Comsec certifies Enjoy's Business Telephony Integration solutions for its ETERNITY range of IP Phone Systems and VoIP Gateways

Enjoy IT Solutions is a specialist in delivering Next Generation IT solutions for SMB and SME. Matrix Comsec is the leading manufacturer of IP Servers, VoIP Gateways and IP Phones. The Integration team at Matrix has tested and certified the Enjoy Synapse from Enjoy as the fully compatible and integrated Business Telephony Integration solutions for its ETERNITY range of IP Phone Systems and VoIP Gateways.

The global customer base of Matrix VoIP solutions range from leading manufacturing enterprises, corporate and hotels to various size call centers. Business telephony integration with the IT is the need of the hour. Hence, to further strengthen the position in the SMB and SME industry, Matrix recently tested and integrated the range of VoIP gateways with the BTI solutions from Enjoy.

“This integration makes Enjoy Synapse capable to integrate with PSTN, ISDN T1/E1/PRI, IP and GSM networks. It also provides connectivity to analog, digital and IP phones. Now, Matrix users can avail unique BTI solutions offering from Enjoy such as software pop-up, Click to dial, Call logs etc. and in turn enhance customer experience and increase employee productivity.” Said Sajeew Nair, Product Manager – Telecom at Matrix.

“Enjoy is pleased to partner with Matrix. This move will enable Enjoy Synapse users to maximize the benefits of advanced IP technology using ETERNITY IP-PBX. Matrix users can expect to achieve the best performance from ETERNITY IP systems with unique BTI solutions from Enjoy and earn manifold returns on their Enjoy Synapse investment” said Limesh Parekh, CEO at Enjoy.
