

APEEJAY SCHOOL SELECTED MATRIX BIOMETRICS TERMINALS FOR ACCURATE TIME-ATTENDANCE MARKING

Case Study

INSTITUTE PROFILE

Apeejay School was established in 1975 to cater educational needs of children in the southern part of the Metropolis, Delhi. The school has been growing in strength and achievements in all directions of educational endeavor from academics to sports, music and dance to computers. Above all there is a focus on value education and a renewed effort to pursue and enrich our basic moral values and cultural heritage coupled with a sense of social responsibility. It has more than 25 branches all over the India.

BUSINESS CHALLENGE

Apeejay School wanted to manage time-attendance of more than 6,000 employees at 25 locations over pan India. Initially, they were using traditional methods for attendance marking. As a result, they were facing many problems in maintaining records for the same. Hence, they required an efficient system for maintaining and recording accurate attendance data of staff members. They needed biometric hardware solution that could be integrated with their existing software solution. They wanted a biometric terminal that would mark in-time and out-time of staff members. Along with that the school administration wanted to integrate the new system with their existing cloud based time-attendance system and third party payroll system.
